Have you noticed the unique artwork displayed throughout the Cencora Headquarters? Fresh Artists creates real-life opportunities for kids to engage as philanthropists, to exhibit their artwork in high profile places for decision-makers to see and to deliver innovative visual art programs and art supplies to public schools struggling with shrinking budgets.

Fresh Artists is an innovative nonprofit empowering compassionate, creative and capable young people to tackle the critical shortage of arts funding in our public schools. We hope you're inspired by the pieces exhibited throughout the building.
